Comfort that drives your success

We believe that the right indoor climate helps businesses succeed. It keeps customers happy, encourages them to stay longer, and empowers staff to work at their best. With smart controls, efficient technology, and flexible configurations, Daikin is your partner in creating the perfect environment.

Local expertise you can rely on

At Daikin, we don't just deliver systems, we deliver partnerships. With offices and support teams across the UK, we're always close by when you need us. Our regional service teams are on hand to help with everything from design and installation through to aftercare and maintenance. And, you'll always speak to real people at the end of the phone line.

Focused on your industry

Unlike many brands, climate control is not just part of what we do. It's all we do. We know a busy café has very different needs from a high-street retailer or a fitness studio. That's why we offer solutions tailored to your unique challenges, helping your business run smoothly and keeping your customers and staff comfortable.

Readily available parts & support

Our commitment to the UK means we maintain a local stock of spare parts, reducing downtime and ensuring quick fixes when needed. Our engineers and account managers take pride in their work and are dedicated to providing the highest level of service, backed by a no-quibble warranty.

Innovation that sets the standard

Daikin combines 100 years of expertise with award-winning design, advanced technology and intelligent features. Smart sensors, efficient inverters, and innovative air purification deliver superior comfort, energy savings, and clean air. We keep pushing boundaries to create premium climate solutions that exceed today's expectations.

Discover the Daikin difference

Daikin is
the world's
**leading HVAC
manufacturer**

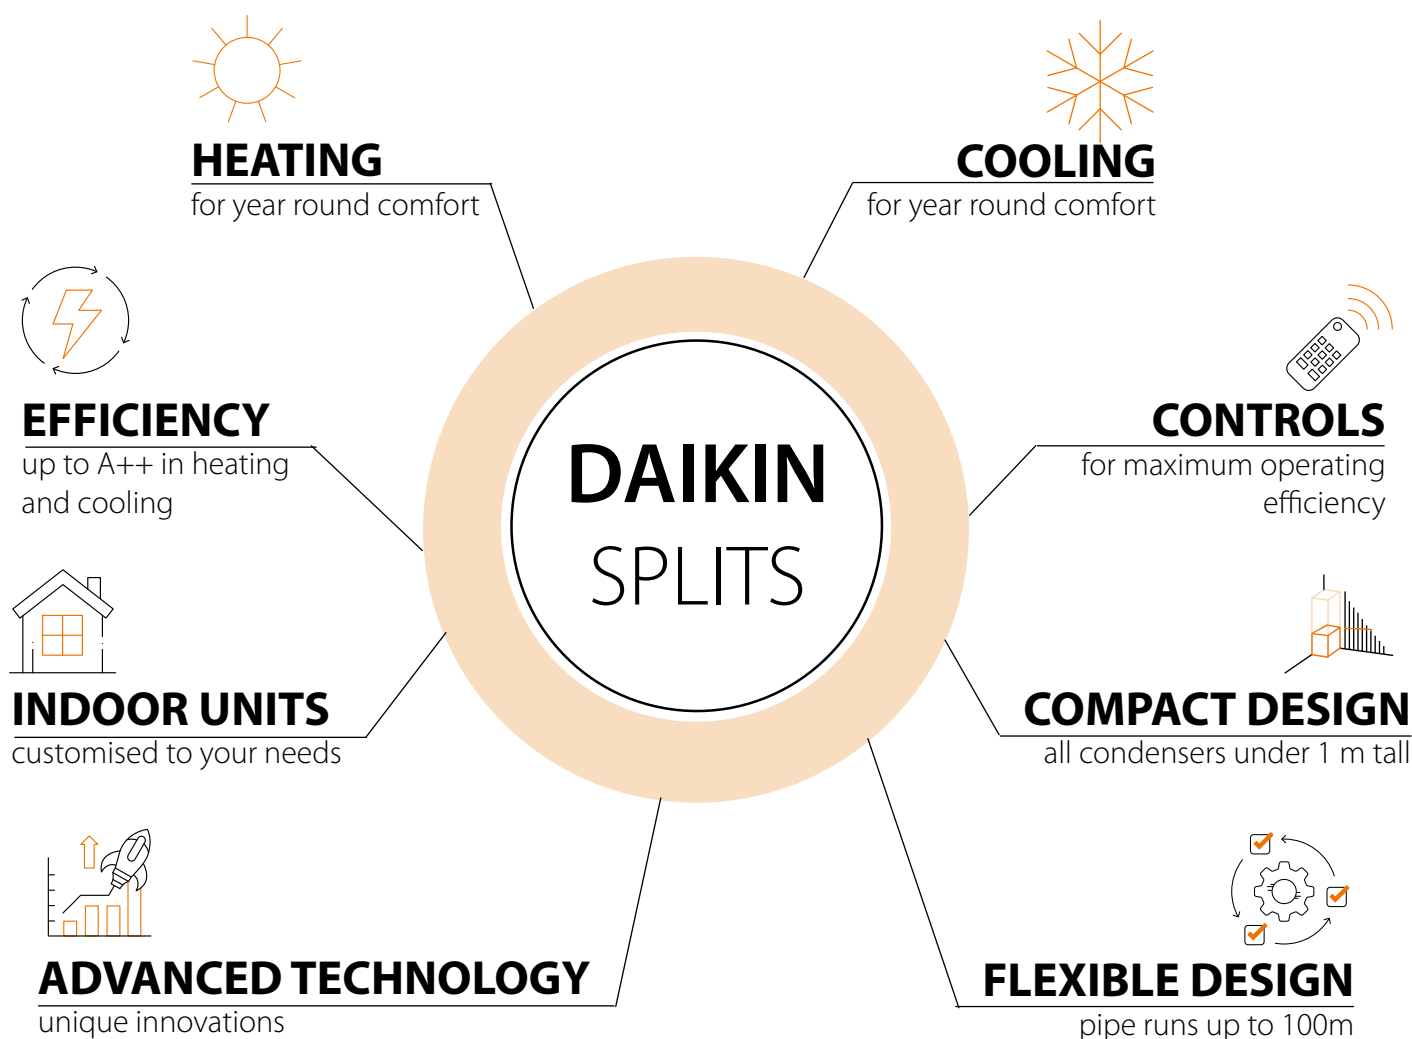

At Daikin, we understand that comfort is more than just temperature. It's about creating a complete experience that enhances your business and keeps your customers and employees happy. That's why we design solutions that go beyond heating and cooling to deliver a full range of benefits that truly set us apart.

Comfort that keeps people coming back

Our systems create a welcoming, stable environment that customers enjoy and staff appreciate. Quiet, draught-free air with intelligent airflow ensures even, comfortable temperatures, while advanced air purification technology improves indoor air quality. People want to stay longer, engage more, and return. Helping you build loyalty and boost sales.

Flexible solutions for every space

No two businesses are alike, and our extensive range of indoor and outdoor units reflects that. With options to suit every need, from the highest efficiencies to more budget-friendly choices, our solutions adapt to a wide range of environments, from boutiques and gyms to multi-room layouts. Delivering comfort and efficiency wherever you need it.

4 x more
efficient than
a gas boiler

Your partner in decarbonisation

Remove the need for fossil fuel heating with our high-efficiency air-to-air solutions. They deliver year-round comfort, lower carbon emissions, and help you create sustainable, low-impact buildings. All without compromising performance. Together, we make decarbonisation achievable and practical.

Flexible solutions for every space

No two businesses are alike, and our extensive range of indoor and outdoor units reflects that. With options to suit every need, from the highest efficiencies to more budget-friendly choices, our solutions adapt to a wide range of environments, from boutiques and gyms to multi-room layouts. Delivering comfort and efficiency wherever you need it.

Energy savings without compromise

Our intelligent designs minimise energy use through advanced features like sensors, timers, and high seasonal efficiency. Helping to keep costs down and support your sustainability goals.

Reliability you can trust

Built to the highest standards and rigorously tested, Daikin products deliver durable, consistent performance you can rely on. With UK-based support, locally stocked parts, and dedicated engineers at your side, our proven technology, extensive testing, and trusted service network provide total peace of mind.

Designed to complement your brand

Our units are more than just functional. They're a design statement. With sleek, contemporary finishes and even customised colour options, they enhance your interior aesthetic and reflect your brand image. Discreet yet distinctive, they integrate seamlessly into any stylish space.

Flexible solutions for small and open spaces

Wall-Mounted Units:

Compact comfort with clean air

Our Daikin wall-mounted range is ideal for fitting into smaller spaces within cafés, boutique shops and small offices. Mounted neatly on the wall, they save floor space and provide quiet, efficient comfort. With fast heating and smart energy-saving sensors, they keep your space welcoming, healthy, and efficient all day long, with effortless operation and stylish design.

- › Compact design saves valuable space while looking great
- › Quieter than a whisper (from 19 dB(A)), it keeps the atmosphere calm
- › Heat Boost warms spaces up to 70% faster for quick comfort
- › Smart sensors cut energy use when rooms are unoccupied

Under Ceiling Cassette:

Wide coverage for open spaces

For wide, open-plan spaces like gyms, restaurants, or meeting rooms, the under ceiling cassette delivers even, efficient comfort without taking up wall or floor space. Installed neatly under ceilings for spaces with no ceiling voids, it fills every corner with draught-free airflow, keeping customers and staff comfortable wherever they are. With its unobtrusive design, quiet operation, and powerful performance, it's the go-to solution for businesses needing reliable comfort across larger areas.

- › Mounted neatly to the ceiling to save wall and floor space
- › Even airflow reaches every corner of the room
- › Quiet, reliable operation supports a pleasant environment
- › Coanda effect directs air along the ceiling to prevent draughts
- › Blends discreetly into any décor

Exclusive to
Daikin

Discreet, high-performance climate control

Sleek design,
superior
comfort

Ducted Units: Invisible comfort

When design and discretion matter, Daikin's ducted units deliver powerful, quiet climate control from behind the scenes. Discreetly installed above ceilings or behind walls, they deliver air through subtle vents, keeping interiors clean, uncluttered, and comfortable. Perfect for high-end shops, offices, and restaurants, ducted systems adapt easily to unusual layouts and zoned control, giving you flexibility without compromising style.

- › Hidden above ceilings and behind walls to preserve open interiors
- › Quiet, efficient airflow maintains comfort without distraction
- › Flexible installation for irregular layouts or zoned areas
- › Simple vents blend seamlessly into walls or ceilings
- › Reliable performance in demanding commercial spaces

Roundflow Cassette: Even comfort and cleaner air

The roundflow cassette delivers uniform comfort, even in challenging spaces. The 360° airflow removes hot and cold spots, while smart sensors save energy by adjusting to occupancy. Optional UV Streamer purifies the air, and designer panels let you customise the look to your space.

- › 360° airflow keeps temperatures consistent throughout
- › Sensors adjust automatically to save energy and maintain comfort
- › Optional UV Streamer purifies air for healthier spaces
- › Range of decorative panels to match your design
- › Quiet operation ideal for customer-facing environments

Fully Flat Cassette: Designed to blend in

For spaces where aesthetics come first, the fully flat cassette integrates perfectly with standard ceiling tiles. Sleek, silent, and highly efficient, it delivers excellent comfort without drawing attention. Ideal for architecturally sensitive or design-focused spaces where subtlety is key.

- › Level finish fits seamlessly into ceiling grids
- › Quiet yet powerful performance keeps everyone comfortable
- › Discreet, modern design suits premium interiors
- › High efficiency helps save energy and reduce costs
- › Perfect for design-conscious commercial environments
- › Floor and presence sensors optimise comfort and cut energy use

Smart features that save time, energy, and space

Up to 28%
energy and
cost savings

Single Fan Outdoor Units:

Compact power

Daikin's single-fan outdoor units pack impressive capacity - up to 25kW - into a compact, quiet design. Built for rooftops, terraces, or walls where space and noise matter, they deliver reliable comfort in even the most challenging conditions. Their discreet appearance and robust engineering make them ideal for businesses that need big performance in a small package.

- › Powerful output in a compact footprint
- › Quiet enough for sensitive, urban locations
- › Flexible and easy to install on walls, roofs, or terraces
- › Engineered for reliability in all conditions
- › Blends discreetly with your building

All
outdoor units
under
1m tall

Autoclean Panels:

Maintenance made easy

Keeping filters clean is essential for efficiency and air quality, but maintenance takes time. Daikin's autocleaning decorative panels solve that by brushing dust from the filters automatically, maintaining peak performance and healthier air while saving on service visits. Especially useful in busy or dusty environments, they're a simple way to keep your system running at its best.

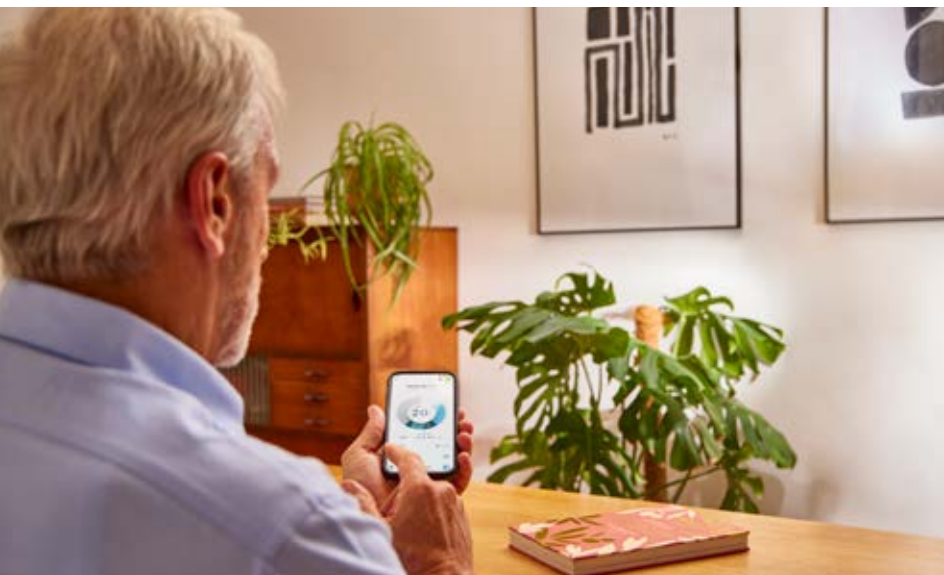

- › Automatic cleaning maintains efficiency and clean airflow
- › Reduces maintenance time and service costs
- › Improves air quality for customers and staff
- › Ideal for dusty or high-traffic spaces
- › Keeps systems performing like new
- › Helps prevent dirt buildup on ceilings and fascia panels

Typical ROI:
within 18
months

Complete control at your fingertips

Simple, reliable on-site control

Daikin's wall-mounted and handheld controllers are intuitive and easy to use. Clear displays and straightforward menus make it simple for anyone to adjust temperature, fan speed, and operating modes quickly and confidently. Weekly timers and lockable settings give managers the ability to maintain consistent conditions without worry.

Onecta App: Control from anywhere

For managers who are on the move, the Onecta app puts control in the palm of your hand. Adjust settings, create schedules, and monitor energy use from your smartphone or tablet, wherever you are. Voice integration with Alexa and Google Assistant adds another layer of convenience.

Cloud+: Smart multi-site management

For larger businesses or those managing multiple locations, Cloud+ offers advanced, cloud-based control. From one dashboard, you can monitor energy use across all your sites, schedule predictive maintenance, and receive real-time alerts. Cloud+ helps you save money, prevent issues before they happen, and keep comfort consistent across your entire business.

Your premium partner in climate control

Why choose Daikin?

When you choose Daikin, you choose more than just heating and cooling equipment. You choose a premium product, premium service, and premium experience, delivered by people who care about your success. Engineers love our products for their quality, reliability, and smart design.

1000+ UK Employees

Local people, local support

We're proud to have offices, showrooms, stock, and more than 1,000 employees here in the UK. That means you always talk to a real person who understands your needs. Our regional engineers and account managers work in your area, offering fast, personalised support when you need it.

Your personal account manager

You'll have your own dedicated account manager. One expert contact for all your needs. With their support, you can expect faster resolutions, smoother processes, and a service that feels truly personal.

Quality that speaks for itself

Daikin is known for quality, with Japanese engineering, European manufacturing, and UK-made components. Engineers trust our products, and our no-quibble warranty gives you peace of mind.

Flexible finance made simple

Our flexible finance options make it easy to invest in premium climate systems. Spread the cost over manageable payments, ease your cash flow, and benefit from fast decisions, quick payments, and upgrade opportunities.

Start your journey with Daikin today

When you choose Daikin, you're partnering with a company that puts your needs first and supports local jobs and expertise. Speak to your local Daikin representative or installer today and discover how we can help.
