

## Daikin Multi Split Improvement

## EXTERNAL BRIEFING September 2025

We at Daikin always strive to be the technological lead driving the air conditioning industry forward. As such, please see the below summary to the updates in our Multi Split range.

## Daikin Multi Split Condensers: (MXM-A9)

- The highest performing multi split range on the market, Daikin multi split systems can reach up to an industry leading A+++ in cooling & heating.
- The widest range of multi split condensers on the market, with **9** condensers to choose from and up to **47** indoors to connect to a system.
- Built in reliability technologies like; refrigerant cooled PCB, Daikin's own patented swing compressor and a refrigerant bottom plate pass to prevent icing up.

## Multi Split Update: (MXM-A8)

- Improving on an already impressive selection, our multi split condensers are getting a wider operation range, signified by a small model number change, from MXM-A9 to MXM-A8.
- All other specifications stay the same eg: efficiencies, unit sizes, unit shapes, power draw, pipe sizes.

Coming soon in October 2025!
